COVID-19 UPDATE FOR GROTON AND LEDYARD RESIDENTS

FROM YOUR STATE REPRESENTATIVE

Christine Conley

40th House District

Connecticut started its vaccine rollout with our first doses going to health care workers and at-risk populations like residents of nursing homes. While it appears we're well ahead of other states, we still have a long way to go. So stay safe and stay vigilant about your health and the health of our neighbors.

In this newsletter, I've compiled information on testing sites, resources for families and businesses, and all-around helpful info in case you or someone you know falls on hard times. Contact me anytime so that we can get you and your family the results that you deserve.

Sincerely,

Christine Conley

When will I be able to receive a COVID-19 Vaccine?

Many Connecticut residents can begin booking appointments to receive the COVID-19 vaccine. More information about eligibility and time lines can be found at ct.gov/covidvaccine/access. Please stay patient as we all eagerly await our turn to be vaccinated. Continue to wear a mask, socially distance, wash your hands and be safe.

Where can employees and employers get information on workplace vaccine access?

If you are an employer of “healthcare” or “critical workforce” staff, visit ct.gov/covidvaccine/employers to sign-up your employees for vaccination.

Can I still get COVID-19 after I’m vaccinated?

It typically takes a few weeks for the body to build immunity after vaccination. That means it’s possible to be infected with the virus just before or just after vaccination. However, if this happens the vaccine may prevent serious illness.
