Total projected savings for ratepayers? Over \$780 million. That's not just policy, that's impact. This legislation is the result of years of bipartisan work, collaboration with advocates and agencies, and a commitment to the "three-legged stool" of energy policy: affordability, reliability, and sustainability.

-Rep. Demicco

✓ **LOWER BILLS**

- Reduced the Public Benefits charge
- Capped infrastructure programs that utility companies make us pay for while they profit off the interest
- Used state financing to pay down COVID-era back payments and storm-related costs that would otherwise be passed onto ratepayers

✓ **CHANGING THE WAY WE POWER OUR STATE**

- Energy Procurement Reform - authorized dynamic market purchases with updated procurement planning to lock in lower prices
- Emergency Planning & Utility Labor Protections - improved emergency restoration planning with crew participation and safety requirements
- Clean Energy Innovation - approved nuclear development, geothermal heating networks, and incentives for higher grid efficiency
