

LEGISLATIVE UPDATE

Dear Friends and Neighbors,

The 2018 Legislative Session began on February 7, and adjourns on May 9.

I continue to serve as House Chair of the Environment Committee. I welcome the opportunity to address important environmental issues, especially in light of potential rollbacks of environmental protections at the federal level. I also continue to serve on the Public Health and Energy & Technology committees.

As always, top priorities include legislation to strengthen Connecticut's economy. We must encourage small businesses to thrive, add good-paying jobs to our workforce, provide incentives for corporations to move here and expand, and develop a sustainable and predictable state budget. At the same time, we must continue to provide needed services to our residents at a reasonable cost.

Please do not hesitate to contact me if you or your family is in need of assistance, or if you would like to share an opinion with me. It is an honor to serve as your state representative, and I look forward to hearing from you about ways we can improve Connecticut for all of us.

Thank you.

Mike Demicco
