PAID
HARTFORD, CT
Permit No. 3937

“Extreme weather and sea rise as a result of climate change are getting worse. Whatever Washington does on climate change, an effective response begins here in CT to protect our climate for future generations.”

– Representative Pat Dillon

THINK GLOBALLY AND ACT LOCALLY IT'S UP TO ALL OF US

WE'VE MADE A LOT OF PROGRESS AS A STATE BY:

- Tackling litter including an overhaul of our bottle redemption program and instituting tire recycling
- Better regulating factories and waste plants near residential neighborhoods
- Banning PFAS and funding its cleanup

BUT THERE'S MORE WORK TO DO:

- More aggressive emission reductions targets
- New incentives for cities, towns, and businesses to engage in environmentally sustainable projects
- A clear plan for preparing workers for future clean jobs
- Using nature-based solutions – helping to preserve more marshlands and forests
