COVID-19 UPDATE FOR HARTFORD RESIDENTS

FROM YOUR STATE REPRESENTATIVE

Joshua Hall

7th House District

Connecticut started its vaccine rollout with the first doses going to healthcare workers and at-risk populations like residents of nursing homes. Now we are vaccinating our teachers and more of the population. While it appears we're well ahead of other states, we still have a long way to go. Stay safe and stay vigilant about your health and the health of our neighbors.

In this newsletter, I've compiled information on testing and vaccination sites, resources for families and businesses, and all-around helpful information in case you or someone you know falls on hard times. Contact me anytime so that we can get you and your family the results that you deserve.

Sincerely,

Joshua Hall

Legislative Office Building, Hartford, CT 06106-1591

When will I be able to receive a COVID-19 Vaccine?

Information about eligibility and time line can be found at ct.gov/covidvaccine/access.

Where can employees and employers get information on workplace vaccine access?

If you are an employer of “healthcare” or “critical workforce” staff, visit ct.gov/covidvaccine/ employers to sign-up your employees for vaccination.

Can I still get COVID-19 after I'm vaccinated?

It typically takes a few weeks for the body to build immunity after vaccination. That means it's possible to be infected with the virus just before or just after vaccination. However, if this happens the vaccine may prevent serious illness.
