

## 2011 Legislative Preview

As your State Representative, I want to thank you for your support as I look forward to serving as your voice at the State Capitol.

This past year proved that Connecticut is still on the road to economic recovery. The job growth and fiscal challenges we face are significant and will certainly be areas of focus this legislative session.

I am pleased to tell you that I have been selected to serve as the House Chairman of the Government Administration and Elections Committee. I have also been selected to serve as a member of the Finance, Revenue and Bonding Committee and as a member of the Transportation Committee. I will work to influence a leaner more efficient government while ensuring the protection of our most vulnerable citizens and keeping essential services properly funded. I am convinced that with your input and support, we can address the most pressing needs of our community.

## STATE BUDGET

The fiscal crisis that has affected many Connecticut families has also weakened the financial status of the state. As a result, we are left with a looming budget deficit that must be addressed this session.

We need to find cuts and savings in government programs without losing the safety net of services that Connecticut families depend upon. I am confident we can accomplish that this session.

## EDUCATION

Providing a quality education is the greatest gift we can give our children to best prepare them for the future.

This session we will look at our state's educational system and determine if changes can be made that benefit students and improve the quality of learning in our schools. With some creative thinking and a new perspective, we can make sure that the children of Connecticut have all the tools they need to succeed.

## JOB CREATION

Far too many Connecticut families and businesses have suffered through these tough economic times.

The best approach to getting Connecticut moving forward again is to focus on job growth. I will be working with business groups and leadership to make our state a better place to both do business in and to live.
