COVID-19 UPDATE FOR HAMDEN AND NEW HAVEN

FROM YOUR STATE REPRESENTATIVE

Robyn A. Porter

94th House District

Connecticut started its vaccine rollout with our first doses going to health care workers and at-risk populations like residents of nursing homes. While it appears we're well ahead of other states, we still have a long way to go. So stay safe and stay vigilant about your health and the health of our neighbors.

In this newsletter, I've compiled information on testing sites, resources for families and businesses, and all-around helpful info in case you or someone you know falls on hard times. Contact me anytime so that we can get you and your family the results that you deserve.

Sincerely,

A handwritten signature in black ink that reads "Robyn Porter".

Robyn Porter
State Representative

When will I be able to receive a COVID-19 Vaccine?

Information about eligibility and timeline can be found at ct.gov/covidvaccine/access. If you are currently eligible go to dphsubmissions.ct.gov/onlinevaccine to enroll for the online vaccine registration portal.

Where can employees and employers get information on workplace vaccine access?

If you are an employer of “healthcare” or “critical workforce” staff, visit ct.gov/covidvaccine/employers to sign-up your employees for vaccination.

Can I still get COVID-19 after I'm vaccinated?

It typically takes a few weeks for the body to build immunity after vaccination. That means it's possible to be infected with the virus just before, or just after, vaccination. However, if this happens, the vaccine may prevent serious illness.
