

STATE REPRESENTATIVE
ROBYN A. PORTER

Connecticut 2020
CENSUS

YOUR VOICE. YOUR FUTURE. YOUR OPPORTUNITY.

Dear Neighbors,

The 2020 census will be critical for Hamden and New Haven. Over the next 10 years, leaders at the federal level will look at the data collected in this year's head count when determining the allocation of resources to our community, our region, and our state.

Although the official count begins in March 2020, the Census Bureau has already begun its educational and recruitment efforts to prepare, inform and direct states on this process.

A quick note: this is the first census in American history where residents can fill out the questionnaire online.

Thank you for your time and if I can be of any help to you and your family please do not hesitate to reach out to my office.

Sincerely,

Robyn A. Porter
State Representative

technical assistance or option 3 to speak with
someone at your area census office.

Did You Know?

It is a Constitutional requirement for every man,
woman and child to be counted regardless of their
race, religion, income level, criminal history
and documentation status.

Four Big Reasons Why You Should Fill Out Your Census Form

1 Money For Our Communities

An accurate count determines our level of federal funding. More than \$675 billion in federal funds are distributed annually using census numbers, meaning about \$2,200 per person in Connecticut. This money is crucial to state and local programs affecting education, housing, job creation, health care and more. We need everyone counted so our state receives its fair share.

2 Representation And Power

The census determines how many members of Congress we will have because federal, state and local redistricting is based on how many people are counted. This directly affects whom we can vote for, who will represent us over the coming decade and how much influence Hamden and New Haven will have when important decisions are made.

3 Resources

Government, businesses, non-profits, foundations and others rely on census data to allocate funds; make decisions affecting healthcare, economic development and jobs; deliver services; react to emergencies; develop housing and so much more. An accurate count directly affects jobs, health, safety, education, and quality of life for our community.

4 It's Safe and Easy!

The privacy of your responses is protected by federal law. The information you provide is confidential and can only be used for statistical purposes. Questions you'll be asked include: name, age, sex, race, ethnicity, whether or not you own or rent, and relationship to any additional members of your household. For the first time, you can respond to the 2020 census online in addition to being able to respond by mailing in a paper census form.
