## REP. URBAN BRINGS HOME FUNDING FOR NORTH STONINGTON EMERGENCY SERVICES CENTER

*Rep. Urban delivers \$300,000 from Dept. of Economic and Community Development*

**State Representative Diana Urban** (D-Stonington, North Stonington) is excited to announce that the State Bond Commission approved \$300,000 for a grant-in-aid to the Town of North Stonington to assist with site improvements associated with construction of a consolidated town emergency services facility this morning.

“Getting state support for the emergency services center has been one of my top priorities this past year. I worked tirelessly advocating for this \$300,000 and am grateful to Governor Malloy for heeding our call. Also a ‘thank you’ to Sen. Maynard for his efforts and support on behalf of this issue,” said Rep. Urban. “With Route 2 traffic, the I-95 interchange, and casinos in our backyard, this consolidated emergency services center is greatly needed in North Stonington.”

In July 2013, residents voted in favor of bringing a consolidated emergency services center to North Stonington at a town referendum. The center will house the ambulance and fire company, both of which are currently located in separate and outdated facilities.

The new center is expected to create 20-30 temporary jobs, and create or retain 25 permanent jobs.
