Dear Neighbor,

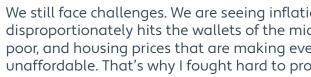

I am proud to share some historic highlights from the 2022 legislative session.

Short sessions, like the one we had this year, are generally assumed to result in minor pieces of legislation. This year was different. We made \$650 million in tax cuts, made deep investments in the mental health of our children, committed ourselves to growing jobs and our economy, and crafted a state budget that pays off billions in pension debt and continues our record rainy day fund while investing in Hamden's schools, mental health, public safety and programs that work - all while honoring the spending cap.

We still face challenges. We are seeing inflation that disproportionately hits the wallets of the middle class and working poor, and housing prices that are making even modest homes unaffordable. That's why I fought hard to provide you with relief: increasing the property tax credit, phasing out taxes on retirement income, creating a childcare payment, and more.

I hope you find this newsletter packed with useful information. It is my pleasure to serve as your state representative.

All my best,

#### As the House Chairman of the Higher Education and Employment

Advancement Committee, I was proud to lead passage of a number of bills such as:

- Expanding the debt-free community college program to more firsttime, part-time students (HB 5506)
- Establishing a student loan reimbursement program for in demand health care and mental health workers (HB 5506)
- Allowing high school graduates to access low-interest loans for attending occupational training programs. (SB 103)
