

12/8/14

Note Rodriguez

The Special Ed. program is not very much helping me nor many of the other kids for that matter. Every time I'm in ~~in~~ that room I can see them and myself struggling. The teachers in my first period study hall literally sit there and get me help. When ever I only do half my homework I get yelled at for it. If I ask my math teacher for basically any thing she almost always yells at me.
